We welcome all telephone orders. Please check your order before you leave to enable us to rectify any mistake.

Don't stack pizzas for too long and remember to always carry them flat. We recommend the best way to cut your pizza is to use kitchen scissors, particularly if you use traditional cutlery i.e. your fingers!

Our food is produced on the premises and may sometimes vary slightly or not always be available. Each order is freshly prepared and during busy periods short delays are sometimes unavoidable. Please bear with us and accept our apologies.
